

Pancreatic Enzyme Products

With more than 30 years of manufacturing expertise in the production of **Active Pharmaceutical Ingredients** from animal derived sources, Scientific Protein Laboratories brings to your company the advantage of this vast experience and time-tested stability.

Our Pancreatic Enzyme API products enjoy significant success in pharmaceutical products for the treatment of Cystic Fibrosis and pancreatic insufficiency. Our products are used extensively in food, nutraceutical, and veterinary applications as well. Due to the wide variety of uses for these enzymes, SPL is well equipped to provide you with a custom blended product to meet your specific needs.

Our manufacturing facility, located in Waunakee, Wisconsin – USA is fully validated, in strict adherence to cGMP, and is FDA, ICH, EMEA, JP and CPMP compliant.

Make SPL your first choice for Pancreatic Enzyme Products
